Executive Summary

This proposal outlines custom web development, automation tools, and competitive SEO & digital marketing services for Tour & Travel Business. The project will deliver a modern,

mobile-responsive website with integrated automation for efficiency, advanced SEO strategies to boost visibility, and one year of ongoing support and content management to ensure sustained growth and performance.

Scope of Work

Design

- UI/UX wireframes and design mockups
- Mobile-first responsive layout
- Branding alignment and custom graphics

Development

- Frontend & backend coding
- CMS integration (e.g., WordPress or custom PHP CMS)
- SEO best-practice implementation
- Testing (cross-browser, performance)

Website Management – 12 Months

- Minor content updates
- Security patching and backups
- Uptime and performance monitoring
- Basic SEO monitoring
- Monthly reporting (if applicable)

Project Timeline

Phase	Duration
-------	----------

Discovery & Planning	1 week
Design Phase	2 weeks
Development Phase	8 weeks
Testing & Launch	1 week
Support Period	12 months post-launch
